PROJECT

Student Portal and Academic Management System (Team Project)

Time: [May 2025]

- Tech Stack: React.js, HTML/CSS, JavaScript, Local Storage

- Built a responsive student portal web application enabling students to sign up, log in, and access academic resources.

- Designed and implemented a dashboard with modules for Profile, Attendance, Marksheet, and College Introduction.

- Integrated authentication logic using local storage to manage user sessions securely on the client side.

- Created a dynamic navigation flow with proper route protection—users are redirected to the Home Page upon logout.

- Contributed to both front-end structure and team collaboration by managing routing, layout, and state management.
